

Escola São Paulo de Ciência Avançada em Metodologia em Ciências Humanas

São Paulo School of Advanced Science on Research Methods for the Humanities

*From the 10th to the 21st of July 2017
IFCH - Unicamp (Campinas, Brazil)*

The Institute of Philosophy and Humanities (IFCH) at the State University of Campinas (Unicamp) invites undergraduate and graduate students, as well as post-doctoral applicants, to participate in the São Paulo School of Advanced Science (ESPCA) on Research Methods for Humanities.

The ESPCA is an initiative of the São Paulo Research Foundation (Fapesp), which funds the organization of short courses (seminars) on advanced research in different fields of knowledge in the State of São Paulo.

The ESPCA on Research Methods for Humanities will be in session from the 10th to the 21st of July 2017 at Unicamp (Campinas, São Paulo, Brazil). The courses (a total of 20 hours) will be administered in English, and the students admitted will be provided full funding by Fapesp.¹ In addition to participating in the courses, students will workshop their own research.

Admitted students must enroll in two of the eight courses offered at the school, attending one each week (10th–14th and 17th–21st of July):

- Event History Analysis
- Big Data and Data Mining for the Social Sciences

¹ Students who live and/or are enrolled in educational institutions in Campinas, as well as Fapesp scholarship recipients, are not eligible for funding. A table listing the per diem allotted to visiting researchers by FAPESP can be found at www.fapesp.br/1086.

- Applied Multi-level Analysis for the Social Sciences
- Qualitative Analysis and Mixed Methods
- Experiments in the Social Sciences
- Digital Ethnography
- Archival Ethnography: The Intersection of Anthropology and History
- Kinship Networks

To apply, the candidate must submit five documents for review (the documents can be sent in English, Portuguese, or Spanish):

- The candidate's statement of purpose, specifying the importance of these courses to the applicant's academic formation and the expected date of completion of the student's undergraduate, master's, or doctoral degree.
- A one-page summary of the research project developed by the candidate.
- A letter of recommendation from the student's advisor.
- Current university transcripts.
- CV with relevant information regarding the student's scientific work (including publications in international scientific journals).

More information will be available at www.ifch.unicamp.br/espca beginning March 3, 2017.

Students will be able to apply via this site between the 20th and 31st of March 2017.

Admission selections will be announced on April 20, 2017.
